# No More Clogged, Stained, or Overflowing Gutters

Made of .027 Gauge Aluminum...the thickest of any shield

## How It Works

Our two channel system works with the first row of holes located on the top of the shield draining the heaviest of rain flow while leaves and debris are pushed off the front nose of the LifeTime Gutter Shield. The remaining water flows back into the lower channel leaving your gutters free of leaves and debris.

LifeTime Gutter Shield works on all types of roofs and styles of homes, can be fitted for K-style, Half Round and Boxed gutter systems and can also be used with aluminum and copper.

LifeTime Gutter Shield can be fitted with any pre-existing gutter system.

Protect your home and keep your basement dry. Don't let clogged gutters spoil your day.

LifeTime Gutter Shield is a proven winner...  
**GUARANTEED.**

LifeTime Gutter Shield is the ONLY shield that prevents gutters from staining.

Our DRIP LIP prevents water from dripping back on the face of the gutters and causing unsightly stains.
